

VCI ALUMINIUM FOIL & SCRIM

VCI PROTECTION & PRESERVATION | UV BAGS & COVERS

Product Data

ITEM CODE & NAME:

- **02-CSF/202** VCI Aluminium Cotton Scrim Reinforced Foil Laminated Sheet 202gsm
- **02-FAC2900/100** VCI Aluminium Barrier Foil Sheet

SPECIFICATIONS:

- **Cotton Scrim Reinforced Foil**
 - **Dimensions:** 915mmW x 200m
 - 202 gsm
 - 90gsm Cotton Scrim+40(PE) +12mic Al.foil +40gsm VCI Poly
 - Optimum storage conditions are 50-60% relative humidity
 - Non-toxic

- **Aluminium Barrier Foil**

- **Dimensions:** 2900mmW x 100m/Roll
- Flexible
- Heat-Sealable
- Water vapor resistant - tri-laminate of Polyester, Aluminum and Polyethylene.

USER TIPS:

- Corrosion-inhibiting to prevent rust
- Suitable for packaging of engineering /steel items, machinery, aerospace and defence industries, transformers, etc.
- Excellent protection against oxygen transmission, physical damage, UV, oils and greases, acids and alkalies.
