

CERTIFIED FOR STORAGE

**GALVANISED DOUBLE
RECYCLE CAGE**

Multi-Purpose Solution

The ultimate solution for efficient waste management and recycling! This versatile cage is designed to streamline the recycling process, making it easier than ever to separate and store recyclable materials.

FEATURES / KEY BENEFITS

HOT-DIP GALVANISED

Assured durability and corrosion protection, even in the most rugged racking environments due to weather exposure.

RHS FORK POCKET

Designed and engineered for safe and efficient forklifting of raw recyclables and safe tipping.

STACKABLE

Can be stacked up to 4 cages high, ideal for storage areas with limited floor space.

SPECIFICATIONS
