

CERTIFIED FOR STORAGE AND TRANSPORT

**XYPHOS® PLUS**

*The all-new timber pallet alternative.*

Long-term storage and transport safety has now been revolutionised with XYPHOS® PLUS - the brand new pallet design from Daywalk.

With a commitment to innovation that reaches into the extraordinary, XYPHOS® PLUS excels as an alternative to timber pallets for long-term storage on every metric.

FEATURES / KEY BENEFITS

**SUSTAINABILITY**

The long lifespan and durability of XYPHOS® PLUS pallets make them a more sustainable option, appealing to companies looking for environmentally friendly solutions.

**SAFETY**

Lighter than hardwood with specialised strengthened under-rails, strapping forces are supported and certified to guarantee safer storage and transport.

**DURABILITY**

Lasting up to 3-5 years as compared to the typical 1-year lifespan of hardwood pallets, the XYPHOS® PLUS is more cost-effective and durable than any other pallet solution over time.
